

## **TEAM ASSESSMENT – FINAL PROJECT, 1 OF 3**

---

**Due Date: Tuesday, 11/5, by 11:59pm**

**Individual Assignment**

**Points: 5**

### **Your Task:**

Reflect on your team for the Product Archaeology project that you just completed. Specifically, consider your contributions as a team member in this project as well as those of your partner. Identify potential issues, problems, or opportunities for improvement that could influence the outcome of this project and future projects that you might work on.

### **What should you submit?**

Submit a Word or PDF file containing the following information:

- A list / summary of **your** contributions to your final project to date
- A list / summary of **each of your team member's** contributions to your final project to date
- A list / summary of issues, problems, or opportunities for improvement that could influence the outcome of this project and of which you would like the instructor to be aware (if any – this is for the instructor's information only and not mandatory to report)

Submit your reflection electronically to the course Canvas site. Late assignments will not be accepted for course credit, but will be evaluated for learning purposes.

### **How Will You Be Graded?**

5 points: professional team working behaviors (T)

- Students who submit feedback about themselves and their project partner(s) that is professionally worded and communicates contributions and potential issues / problems will earn the full 5 points.
- Students whose feedback is not professionally worded and / or does not contain the request information will earn 0 points for this assignment.
